The Board has begun the strategic planning process to determine areas of focus and specific goals for the next three years. In the weeks ahead, all parents and residents will have the opportunity to complete an electronic survey regarding district strengths, needs and priorities for future work. In addition to the survey, if you would like to attend a forum led by Judith Wilson, facilitator for the strategic planning process, please join her on Monday, October 22nd from 7:30PM to 8:45PM in the High School - Room C8 to share your thoughts!
