NJ ASSESSMENTS CYCLE II REPORT GRADES 6-8 and 11 October 29, 2009

NJ Statewide Assessments

- As a result of the No Child Left Behind Act, New Jersey's statewide assessment of students changed in 2003.
- Students in grades 3, 4, 5, 6, 7 & 8 take the NJ Assessment of Skills and Knowledge (ASK) and students in grade 11 take the High School Proficiency Assessment (HSPA). Students are scored as proficient, advanced proficient or partially proficient.
- These assessments are grounded in the state's core curriculum content standards, and are designed to assess students' critical thinking skills in two fundamental areas: Language Arts Literacy (LAL) and Mathematics. Students at grade 4 and 8 are also assessed in science, but science results are not considered for NCLB reporting.
- In 2009 an end-of-course assessment was operational for Biology for high school students to replace the HSPA science assessment, and in 2010 an end-of-course assessment in Algebra I will be added. At this time, students will still take the HSPA mathematics assessment.
- New assessments were introduced for grades 3 & 4 designed to add additional rigor and better alignment to the standards.

WHY CYCLE II RESULTS?

Cycle II information allows Haddonfield School District to compare its performance to other districts which have similar demographics, as in this Grade 8 NJ ASK 2009 DFG (District Factor Group) chart. Haddonfield is a "J" district.

NJ ASK 2009 Comparative Results

- Comparing Haddonfield's success rate for the cohort of students currently in grade 8 to statewide & DFG total student performance
- Tracking the percentage of grade 8 students scoring advanced proficient from 2004-2009
- The summer 2009 state decision to request to reset AYP (Adequate Yearly Progress) starting points and AMOs (Annual Measurable Objectives) for NJ ASK 3-4 student achievement has delayed the receipt of final results for grades 3, 4 & 5.
