

## **BOARD GOALS FOR 2006-2007**

1. The administration, in collaboration with faculty, will design a system for defining/developing a learning plan for each elementary student addressing individual strengths and challenges that may be passed on from year to year.
2. We will develop and begin to implement comprehensive and classroom based technology plans to integrate technologies into learning and instruction.
3. We will improve our communication with all our constituents.
4. We will seek creative alternative funding sources.

To be continued and finished early in the school year:

We will develop a student focused Haddonfield School District disciplinary code for all our students and schools.
