

Clubs & Activities

To complement its strong academic courses and outstanding athletic programs, Haddonfield Memorial High School offers a full slate of co-curricular activities. More than 90% of our students explore their interests through clubs, music and arts groups and service organizations. Music, arts and drama clubs perform frequently in school and public settings, and HMHS students participate in a wide variety of community service projects.

The community service and academic achievements of many HMHS students are recognized through their induction into the National Honor Society, National Art Honor Society, World Language Honor Society, and/or the Tri-M Music Honor Society. More than 200 of our students are members of one or more of these honor societies.
